

Reliable Panic Response for YMCAs

Emergencies can happen anywhere, from the pool deck to child care to the front desk. Rescue provides a fast and reliable response system that empowers your staff to act confidently in critical moments.

Built on a private radio network, Rescue delivers instant, reliable alerts with real-time location tracking, all without needing Wi-Fi, apps, or complex installs.

Rescue Card

One-button wearable badge

Test mode, Yellow, and Red Alerts (with red notifying all staff + 911)

Replaceable 1-year batteries

OTA software & configuration updates

Rescue Raft

Auto-activates when submerged in water

Triggers both audible and visual alerts via nearby Alert Stations

Enables rapid, coordinated response to responders.

Fast-charging magnetic dock fully recharges devices

Rescue Base Stations

Ethernet & cellular connectivity

Cloud integration with Rescue Dashboard

Hardware alerts: battery, connection, status

Fully managed, remotely configurable

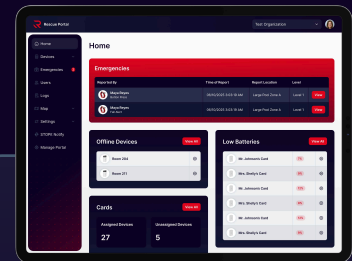

Rescue Repeaters

Install in rooms across your facility

Real-time indoor location triangulation

Local redundancy if Wi-Fi goes down

OTA updates, no technician needed

Rescue Dashboard

Live system overview: See which devices are online, low on battery, or need attention

Real-time emergency display: Track level 1 and level 2 incidents as they happen

Indoor location mapping: Pinpoint exact card and repeater locations

Already a Rescue Customer Using Our Raft Product for Pool Emergencies?

Easily expand that same system to cover:

- Childcare & Youth Programs
- Front Desk or Lobby Situations
- Member Medical Emergencies

Using the same LORA infrastructure and Rescue platform, YMCAs can now add general-purpose staff panic response, without overhauling your current setup.

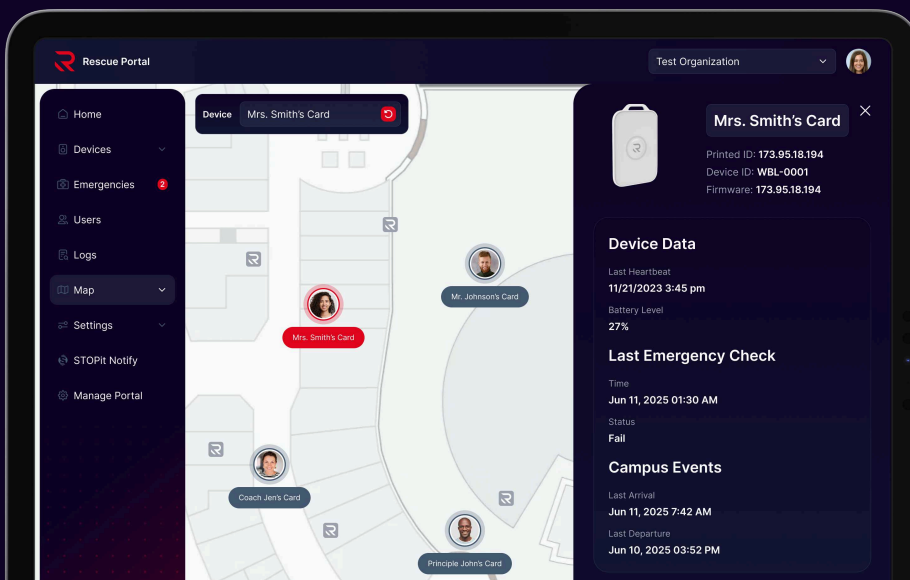

Why YMCAs Are Choosing Rescue + Raft

Rescue is built specifically for community and high-risk environments like YMCAs, combining pool and facility alerts into one simple, unified dashboard. It works seamlessly as a standalone system or alongside STOPit Notify, offering the longest-lasting hardware in its category. Most importantly, it's an intuitive solution your team can rely on, even under pressure.

Unified Emergency Architecture for All Areas of Your YMCA

- Pool deck? Raft.
- Childcare? Rescue Cards.
- Whole facility? One system, real-time visibility, and reliability.
